

Cambridge Technical L3

ACTIVITY

You should ensure that you know the **different types** of computer hardware required for a **variety** of computer systems

Research different types of:

- Input devices
- Output devices
- Communications devices

For each one explain:

- the benefits
- limitations
- uses

You can choose how to present your work – e.g. report, tables, PowerPoint, Prezi, booklet. Be prepared to show this to others in September.

EXTRA:

Take photographs of the different types of hardware to include in your report/presentation, e.g. a visit to PC World to take photos of different computer systems or individual bits of hardware

See if you can find different types of the same product... e.g. a braille keyboard, or one for primary children with larger buttons. Different types of mouse etc.

CONTACT: Mr Bishop

See below for details that will be included re: summer response times

You can email **Mr Bishop** if you have any questions regarding the course or these induction tasks:

ryan.bishop@ashfield.notts.sch.uk

For the best chance of a quick reply, please do this before the summer break, emails during the summer break will get replies but these may take longer.
